Objective

To secure a MERN Stack Developer position where I can utilize my skills in HTML, CSS, JavaScript, React.js, Next.js, Vue.js, React Native, Redux Toolkit, Express.js, and MongoDB to develop responsive, scalable, and high-performance web applications. I am passionate about creating intuitive UI/UX using modern tools like Tailwind CSS and Bootstrap, integrating robust APIs (REST & GraphQL), and contributing to a collaborative team environment while continuously enhancing my technical expertise.

Experience

- InvexTech** 20 January 2024 - 1 August 2025
Mern Stack Developer
I am a Frontend Developer with 1 year of experience building responsive, user-friendly, and high-performance web applications using modern JavaScript frameworks. I specialize in delivering seamless UI/UX across devices using technologies like React.js, Next.js, Vue.js, and React Native.

Additionally, I have 6 months of backend development experience, which has strengthened my understanding of full-stack workflows and enhanced my ability to collaborate effectively across cross-functional teams.

Technical Skills:

- Frontend: HTML, CSS, JavaScript
- Styling & UI Frameworks: Tailwind CSS, Bootstrap
- JavaScript Libraries & Frameworks: React.js, Next.js, Vue.js, React Native
- State Management: Redux, Redux Toolkit
- API Integration: REST APIs, GraphQL

Backend:

- Node.js, Express.js
- MongoDB (with Mongoose)
- User Authentication & Authorization (JWT, bcrypt)
- API Security & Validation (CORS, Helmet, express-validator)
- File Uploads (Multer), Basic CRUD APIs

Tools & Workflow:

- Git, GitHub
- Focus on clean code, reusable components, and performance optimization
- Strong understanding of UI/UX best practices.

Education

Course / Degree	School / University	Grade / Score	Year
Matric	Government High School	858/1100	2018
ICS	Zakaria Science Academy	778/1100	2020
BSCS	University of Okara	3.4	2025

Skills

- HTML5
- CSS3
- Tailwind CSS / Bootstrap
- React.js / Next.js / Vue.js
- React Native
- Redux / Redux Toolkit
- Rest api/ GraphQL api
- Express js / Mongo DB

Projects

- **Chatting app**
Real-Time Chat App built with MERN stack featuring user authentication (JWT), real-time messaging via Socket.io, and role-based access control. Admins can promote/remove users, manage groups, and monitor chats. Clean, responsive UI with React and Tailwind CSS. Secure backend using Node.js and MongoDB. Supports private and group chats with live user status.
- **E commerce Website (Web)**
Built a responsive E-commerce website front-end using React.js and Bootstrap. Includes product listings, detail pages, shopping cart, and search/filter functionality. Designed reusable components with smooth navigation and clean UI. Optimized for all screen sizes and ready for backend integration. Focused on delivering a user-friendly shopping experience with modern layout and styling.
- **CRM Project**
Worked on a CRM project's front-end using Next.js during internship at a software house. Developed responsive UI components, handled dynamic routing, and integrated APIs for user management and data visualization. Focused on clean design, performance optimization, and reusable code structure. Gained hands-on experience with real-world codebase, version control, and team collaboration.
- **Government Case Management Portal**
React.js, Next.js, Tailwind CSS, REST API
Developed frontend for an official government platform handling legal cases like divorce and property disputes. Focused on responsive UI and secure data integration.
- **Portfolio Website**
React.js, Tailwind CSS
Personal portfolio showcasing skills and projects with a mobile-first responsive design.
- **Blogging Platform**
React, Node.js, Express, MongoDB
Developed user dashboard, blog posting system, and comments section. Implemented JWT-based authentication.
- **E-Commerce Mobile App**
Tech Stack: React Native, Redux Toolkit
Built a cross-platform mobile e-commerce app with product catalog, cart, and user authentication. Focused on smooth navigation, responsive design, and efficient local & global state handling using Redux Toolkit.
